Notes | Games section - games (a) linked to game URLs, games that were played but later forfeited are treated as though they weren't played (and therefore aren't linked); all game start times are listed as UTC and rounded to the nearest 25 minutes. Story section - games are ordered from left to right by time of completion. Unplayed games are assigned instead by scheduled time, and unplayed pairings without scheduled times are shown last. The y-axis shows the match score difference between the teams, and the x-axis tracks the moves played in each game. Both axes are scaled for consistency and legibility. The circles below players' ratings indicate colours (White means Black). The scores after each game track the overall match score. Stats section - W: wins, L: losses, D: draws, FW: forfeit wins, FL: forfeit losses, FD: scheduling draws, Clock: total clock time used, ACPL: team's average centipawn loss (accounting for 0 moves), Inaccuracies/Mistakes/Blunders: % of team's moves that comprised of each error type. Other: title rankings only shown for the top 10 teams in the pre-match standings, ignoring forfeits.
