NOTES: 'Games': all played and non-forfeited games have hyperlinked @ character game IDs, the days/times show when each game started, shown in UTC and rounded to the nearest 15 minutes. 'Story': the y-axis tracks the difference between each team's overall match score, scaling each game's move-by-move evaluation accordingly, while the x-axis shows moves played in the match; both axes are scaled for consistency and legibility; games in the match are ordered from left to right by the time of their last move (unplayed games are then assigned a place by their original scheduled time, and pairings without a scheduled time are shown last). 'Stats': (F)W/(D,L) (forfeit) wins/losses/draws, Clock: total clock time used, ACPL: team average centipawn loss (adjusted for moves), Inaccuracies/Mistakes/Blunders: % moves of each error type. Also: ranks only shown for the top 10 teams at the start of the round, ignoring byes/abs; ranks not shown for Round 1. This plot was compiled on 6 March 2023.

NOTES: 'Games': all played and non-forfeited games have hyperlinked 8 character game IDs, the days/times show when each game started, shown in UTC and rounded to the nearest 15 minutes. 'Story': the y-axis tracks the difference between each team's overall match score, scaling each game's move-by-move evaluation accordingly, while the x-axis shows moves played in the match; both axes are scaled for consistency and legibility; games in the match are ordered from left to right by the time of their last move (unplayed games are then assigned a place by their original scheduled time, and pairings without a scheduled time are shown last). 'Stats': (F)W/(L)/(D)/(forfeit) wins/losses/draws, Clock: total clock time used, ACPL: team average centipawn loss (adjusted for moves), Inaccuracies/Mistakes/Blunders: % moves of each error type. Also: ranks only shown for the top 10 teams at the start of the round, ignoring byes/abs; ranks not shown for Round 1. This plot was compiled on 6 March 2023.
