NOTES: Games: all played and non-forfeited games have hyperlinked 8 character game IDs, the days/times show when each game started, shown in UTC and rounded to the nearest 15 minutes. Story: the y-axis tracks the difference between each team's overall match score, scaling each game's move-by-move evaluation accordingly, while the x-axis shows moves played in the match; both axes are scaled for consistency and legibility; games in the match are ordered from left to right by the time of their last move (applied games are then assigned a place by their original scheduled time, and pairings without a scheduled time are shown last). Stats: (F)W/D/L: (forfeit) win/draw/loss, Clock: total clock time used, ACPL: team average centipawn loss (adjusted for moves), Inaccuracies/Mistakes/Blunders: % moves of each error type. Also: ranks only shown for the top 10 teams at the start of the round, ignoring tiebreaks; ranks not shown for Round 1. This plot was compiled on 6 April 2024.

NOTES: Games: all played and non-forfeited games have hyperlinked 8 character game IDs, the days/times show when each game started, shown in UTC and rounded to the nearest 15 minutes. Story: the y-axis tracks the difference between each team's overall match score, scaling each game's move-by-move evaluation accordingly, while the x-axis shows moves played in the match; both axes are scaled for consistency and legibility; games in the match are ordered from left to right by the time of their last move (applied games are then assigned a place by their original scheduled time, and pairings without a scheduled time are shown last). Stats: (F)W/D/L, (h:m:s) w/m/losses/draws, Clock: total clock time used, ACPL: team average centipawn loss (adjusted for moves), Inaccuracies/Mistakes/Blunders: % moves of each error type. Also: ranks only shown for the top 10 teams at the start of the round, ignoring tiebreaks; ranks not shown for Round 1. This plot was compiled on 6 April 2024.
